

# CONTENTS

Foreword .....	0-1	3. Starting and stop the engine .....	4-3																																																																
Before servicing this machine .....	0-2	4. Mode selection system .....	4-7																																																																
EC regulation approved .....	0-3	5. Operation of the working device .....	4-12																																																																
Table to enter S/No and distribution .....	0-4	6. Operation of cab .....	4-13																																																																
Safety labels .....	0-5	7. Traveling of the machine .....	4-15																																																																
Machine data plate .....	0-19	8. Efficient working method .....	4-21																																																																
Guide (direction, S/No, symbol) .....	0-20	9. Operation in the special work sites .....	4-24																																																																
<b>SAFETY HINTS</b>																																																																			
1. Before operating the machine .....	1-1	10. Normal operation of excavator .....	4-26																																																																
2. During operating the machine .....	1-16	11. Attachment lowering .....	4-27																																																																
3. During maintenance .....	1-24	12. Storage .....	4-28																																																																
4. Parking .....	1-27	<b>TRANSPORTATION</b>																																																																	
<b>SPECIFICATIONS</b>																																																																			
1. Major components .....	2-1	1. Road traveling .....	5-1																																																																
2. Specifications .....	2-2	2. Preparation for transportation .....	5-2																																																																
3. Working range .....	2-3	3. Dimension and weight .....	5-3																																																																
4. Weight .....	2-4	4. Loading the machine .....	5-5																																																																
5. Lifting capacities .....	2-5	5. Fixing the machine .....	5-7																																																																
6. Grapple guide .....	2-8	6. Loading and unloading by crane .....	5-8																																																																
7. Specification for major components .....	2-10	<b>MAINTENANCE</b>																																																																	
8. Recommended oils .....	2-14					<b>CONTROL DEVICES</b>				1. Cab devices .....	3-1	1. Instruction .....	6-1	2. Cluster .....	3-2	2. Tightening torque .....	6-6	3. Switches .....	3-25	3. Fuel, coolant and lubricants .....	6-9	4. Levers and pedals .....	3-35	4. Maintenance check list .....	6-11	5. Air conditioner and heater .....	3-48	5. Maintenance chart .....	6-16	6. Others .....	3-42	6. Service instruction .....	6-18	<b>OPERATION</b>				1. Suggestion for new machine .....	4-1	7. Electrical system .....	6-44	2. Check before starting the engine .....	4-2	8. Air conditioner and heater .....	6-47	<b>TROUBLESHOOTING GUIDE</b>				1. Engine .....	7-1	<b>INDEX</b> .....				2. Electrical system .....	7-2				8-1	3. Others .....	7-3				
<b>CONTROL DEVICES</b>																																																																			
1. Cab devices .....	3-1	1. Instruction .....	6-1																																																																
2. Cluster .....	3-2	2. Tightening torque .....	6-6																																																																
3. Switches .....	3-25	3. Fuel, coolant and lubricants .....	6-9																																																																
4. Levers and pedals .....	3-35	4. Maintenance check list .....	6-11																																																																
5. Air conditioner and heater .....	3-48	5. Maintenance chart .....	6-16																																																																
6. Others .....	3-42	6. Service instruction .....	6-18																																																																
<b>OPERATION</b>																																																																			
1. Suggestion for new machine .....	4-1	7. Electrical system .....	6-44																																																																
2. Check before starting the engine .....	4-2	8. Air conditioner and heater .....	6-47																																																																
<b>TROUBLESHOOTING GUIDE</b>																																																																			
1. Engine .....	7-1	<b>INDEX</b> .....																																																																	
2. Electrical system .....	7-2				8-1																																																														
3. Others .....	7-3
